Vintage 440	440	White	x			x		
Unlimited	Unlimited	White	x	x		x	x	x
Fun Runs	n/a	Yellow	x	x	x	x	x	x

BASIC GUIDELINES

Stock: no engine mods, no aftermarket pipes or cans allowed, may be lowered and run 0.5 inch speed track.

All lay downs automatically go into any open mod class with the correct cc category.

Super Stock Body, Custom Racer, and Super Mod Open classes are new modified classes to separate gas, nitrous, & turbo plus differentiate between Stock Chassis, Custom Chassis, and lay down sleds.

Speed tracks are allowed in the improved stock classes.

Full Body = Stock tunnel and stock appearance

Custom Body = custom tunnel and stock appearance

Exhibition = custom body to the point there is a non snowmobile appearance

Lay down = custom tunnel and non stock appearance

3 cylinder 4 stroke stock sleds can enter into 500 cc classes.

4 cylinder 4 stroke stock sleds can enter into 700 cc classes.

Tape must show the CC Class and the driver # i.e. Green Tape 500/27 = stock 500 driver 27.

If you break a world speed record you will be asked to go through tech again.

Driver's Grudge: \$25 tech fee if a driver disputes another driver's entrance into a class.

All trophy tapes must display the driver #/class (except fun run tapes)

Trophy Tapes example: green tape 27/800 = driver 27 stock 800.

Yellow Fun run tapes example 27 = driver 27. No class needed on a yellow tape.
